Diseases of the Eyelids

Blepharitis - Bacterial

- Staph bacterial overgrowth
- Enzymes
 - Lipases
- Saponification
- Biofilm
- Lid margin changes

Dr. Cory J.
Lappin

Blepharitis - *Demodex*

- 69% of blepharitis cases are due to *Demodex* infestation leading to *Demodex* blepharitis¹⁻⁴
 - *Demodex* mites are implicated in other diseases of the lid and lid margin, including blepharitis and meibomian gland dysfunction^{2,3}
 - *Demodex* mites are associated with acne vulgaris, folliculitis, rosacea, seborrheic dermatitis, perioral and scalp hair loss, and basal cell carcinoma^{1,3}
- Overpopulation
 - *Demodex folliculorum*
 - Lash follicles
 - *Demodex brevis*
 - Meibomian glands

Blepharitis - *Demodex*

***Demodex folliculorum* and
Demodex brevis - only 2 species
found in humans⁵**

- The life cycle of the *Demodex* mite is approximately 14 to 18 days from the egg to the larval stage followed by the adult stage⁵
- The life span of the mite is limited outside the living body; direct contact is required for transinfestation⁵

D. folliculorum

0.3-0.4 mm length
Colonizes the base of the
lash follicle²

D. brevis

0.1 mm length
Colonizes the
meibomian gland²

Collarettes are pathognomonic sign of *Demodex* blepharitis

Collarettes, or cylindrical dandruff, are composed of mite waste products and eggs¹

- Collarettes are translucent, solidified exudative excretions that form a cylindrical collar that cuffs around the base of the eyelash follicle¹⁻³
- Collarettes are displaced along the shaft of the lash as it grows, and they are also displaced due to bacterial overgrowth⁴
- Collarettes are composed of regurgitated undigested mite waste combined with epithelial cells, keratin, mite eggs, and secreted proteases and lipases that cause irritation³
- **100%** of patients with collarettes have *Demodex* blepharitis^{2,5}

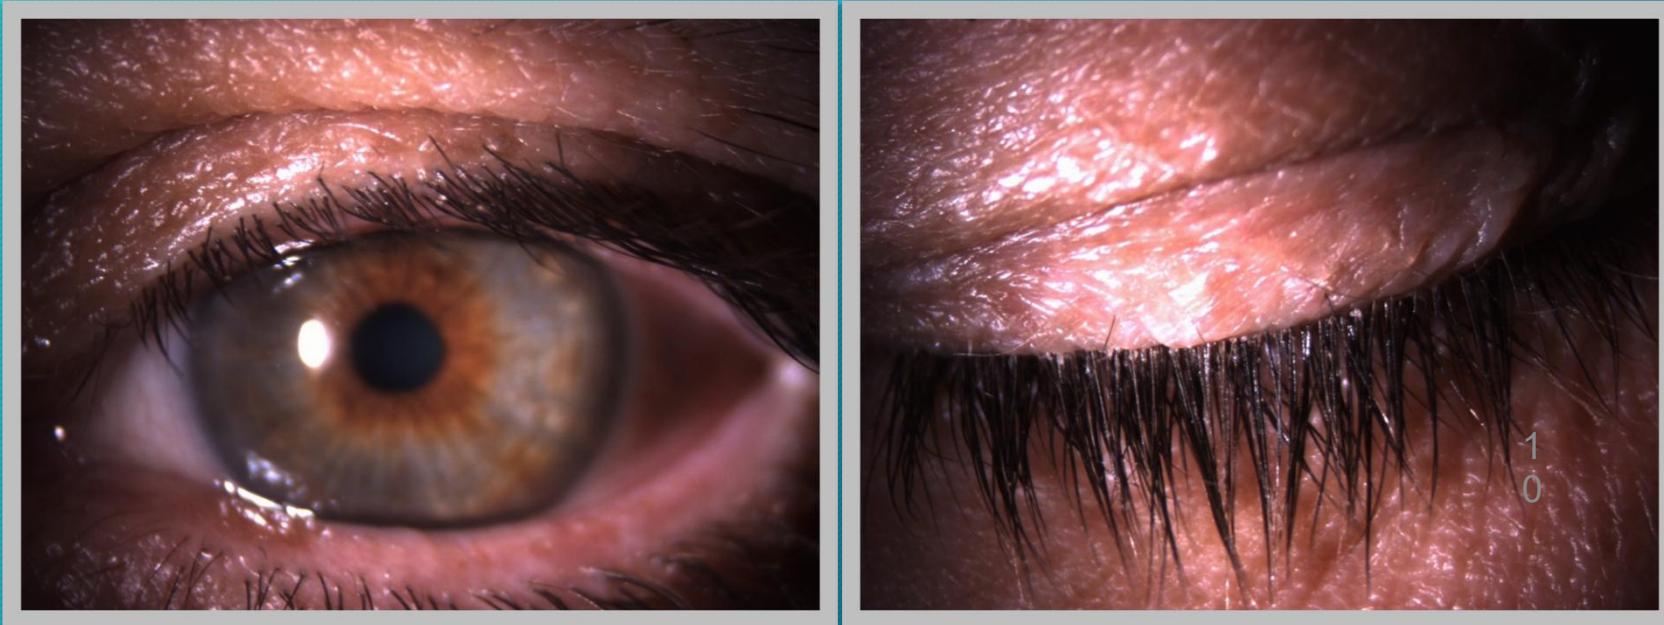

Collarettes at the base of eye lash

Diagnosing Demodex blepharitis (DB) is as simple as having your patients look down¹

Images c/o Marc Bloomenstein, OD, FAAO

Blepharitis - Allergic

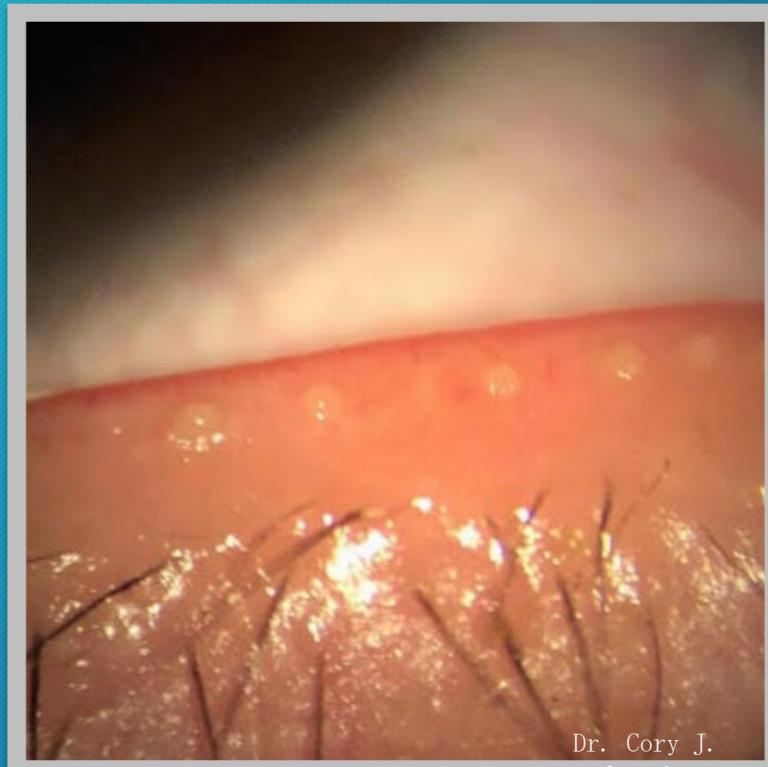

- Type I hypersensitivity
 - Environmental allergens
- Flaking, scaling of skin
- Edema
- Papillary reaction

Dr. Cory J.
Lappin

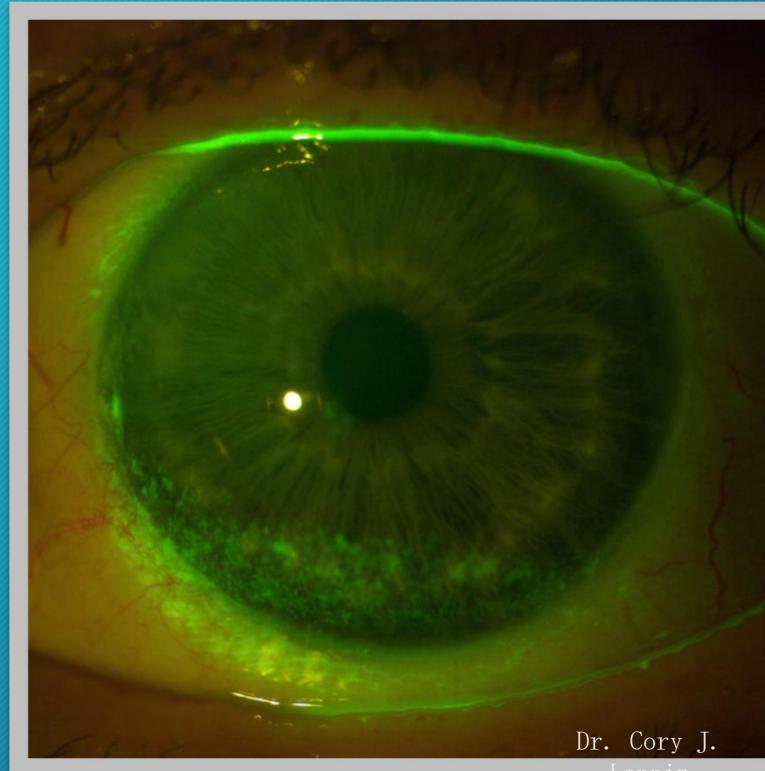

Meibomian Gland Dysfunction (MGD)

- Multifactorial
 - Obstructive
 - Inflammatory
- Gland
 - Inspissation
 - Hypertrophy
 - Inflammation

Mechanical Eyelid Issues

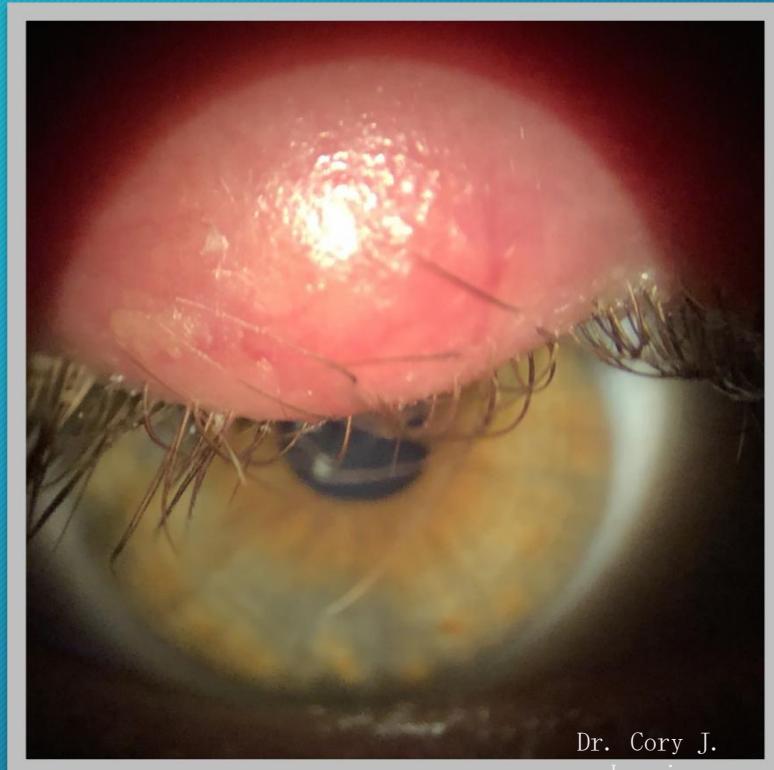

- Lagophthalmos
- Poor lid seal
- Lid laxity
 - Aging
 - Floppy eyelid syndrome
- Ptosis
- Malposition
 - Ectropion
 - Entropion

Dr. Cory J.
Lappin

Internal Eyelid Lesions

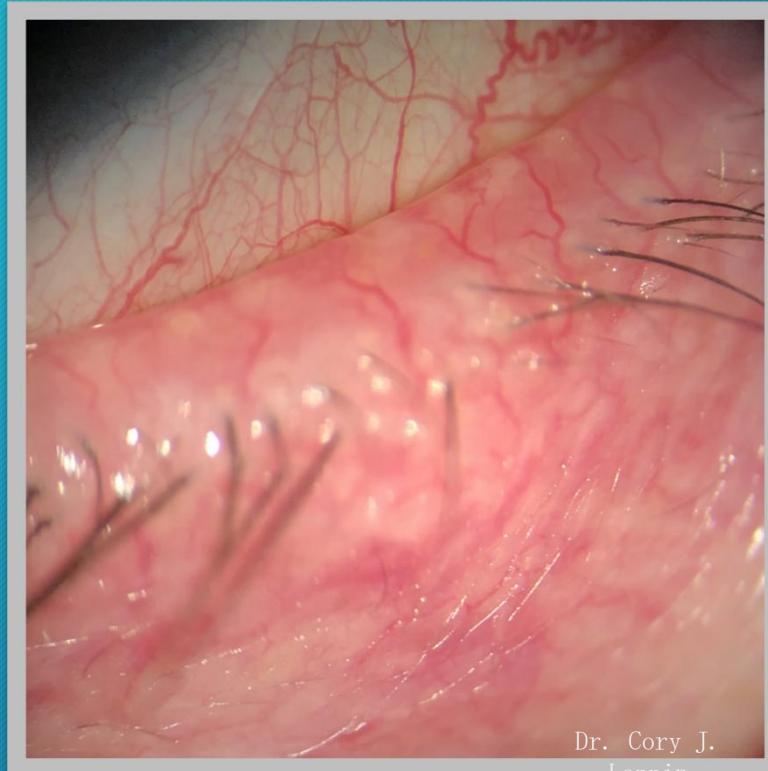

- Chalazion
 - Inflammatory
- Hordeolum
 - Infectious

Dr. Cory J.
Lappin

Rosacea

- Ocular rosacea
 - Subtype 4
- Lid telangiectasia
- Flushing
 - Exacerbation caused by environmental triggers

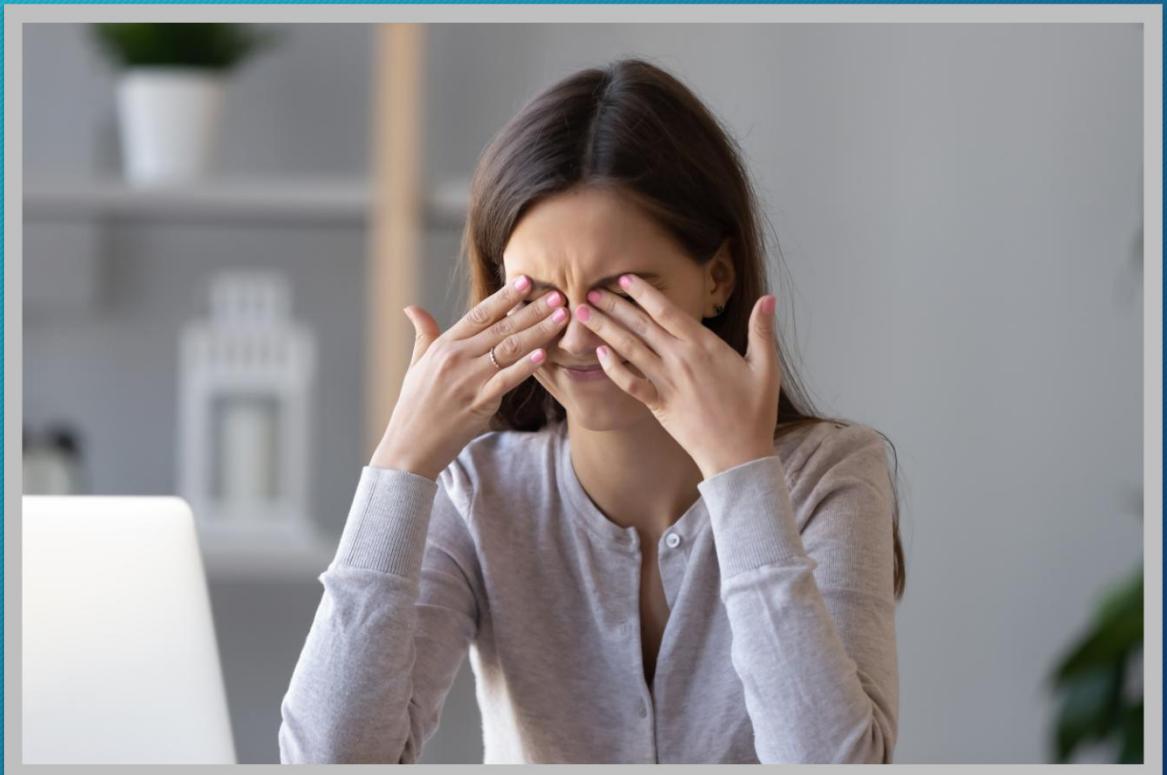

Dr. Cory J.
Lappin

Impact of Eyelid Disease on Ocular Surface

Ocular Surface Dysfunction

- Tear film instability
 - Poor tear secretion
 - Inflammation
 - Corneal and conjunctival damage
 - Fluctuating vision
- Impaired protection
 - Exposure
 - Abnormal blinking
- Cosmetic concerns
 - Erythema
 - Lash loss

Eyelid Disease Treatments

Hygiene

- Traditional
 - Hypochlorous acid
 - Tea tree oil
 - Okra-based cleansers
 - Baby shampoo
 - Avoid
- Warm compresses
 - Primarily palliative
 - Caution in rosacea
- Dietary supplements
 - Omega-3 fatty acids
- Prescription
 - Lotilaner (Xdemvy)
 - Ivermectin cream

In-office Treatments

Microblepharoexfoliation & Cleansing

- BlephEx
 - NuLids
 - ZEST
 - Rinsada
-
- Thermal Pulsation/Expression
 - Liquifies and evacuates meibum
 - Devices
 - LipiFlow
 - iLux
 - TearCare

• Intense Pulsed Light

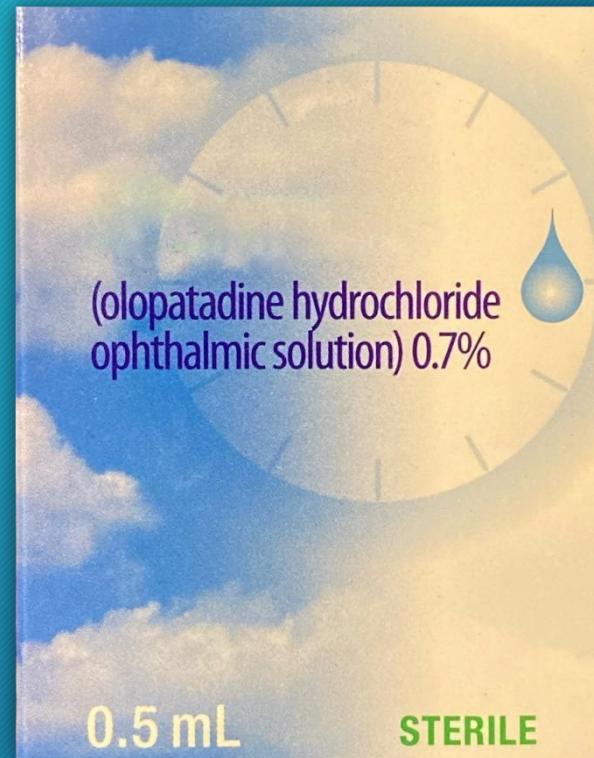

- Reduces microbial burden
- Destroys telangiectatic vessels
- Improves skin quality
- Chalazion treatment

• Radiofrequency (RF)

- Liquefies meibum
- Improves skin quality

Allergy & Atopy Treatments

- Antihistamine-mast cell stabilizers
 - Olopatadine
 - Lastacraft
- Preferential exclusion
 - Ectoin
- Antiinflammatory
 - Topical steroids
 - Caution
 - Tacrolimus

Matrix Metalloproteinase Inhibitors

- Tetracyclines
 - Doxycycline
- Macrolides
 - Azithromycin
 - Oral
 - Topical

Doctor 4U. Doxycycline Antimalarial Tablets Image 4. CC BY 2.0, www.doctor-4-u.co.uk. Published September 3, 2019. Accessed December 18, 2021.

Ocular Surface Exposure

- Nocturnal exposure
 - Gels and ointments
 - Sleep goggles
- Daytime exposure
 - Scleral lenses
 - Moisture chamber specs

Thank you!
